Shaping Postgraduate Education

Sri Venkateswara Group of Institutions Strengthens Postgraduate Education in Coimbatore

Sri Venkateswara Group of Institutions continues to play a vital role in shaping postgraduate education in Coimbatore by offering industry focused programmes in management and computer applications. Functioning under the Sri Venkateswara Educational and Charitable Trust, the institution has steadily earned recognition for its commitment to academic learning, skill development, and student achievements.

Commander K. Velu, Founder & CEO

the All India Council for Technical Education, the institution offers MBA and MCA programmes designed to meet the evolving demands of the corporate and technology sectors. The curriculum places strong emphasis on practical learning, analytical thinking, and leadership development, ensuring that students graduate with both theoretical knowledge and real-world exposure. The institution adopts a student centric learning approach supported by experienced faculty members, modern teaching methodologies, and continuous academic mentoring. Regular guest lectures, industry interactions, workshops, and seminars provide students with insights into current market trends and professional expectations. This exposure helps bridge the gap between classroom learning and workplace requirements.

A dedicated Training and Placement Cell works closely with corporate partners to enhance employability among students. Through structured training programmes, aptitude development sessions, and mock interviews, students are prepared to face recruitment processes with confidence. Many graduates have secured placements in reputed organisations, reflecting the effectiveness of the institution's career-oriented initiatives.

Beyond academics, the campus offers a supportive and disciplined environment with facilities such as hostels for men and women, digital learning resources, recreational spaces, and a focus on student well-being. Cultural activities, sports, and social responsibility programmes contribute to the holistic development of learners.

With admissions now open for the upcoming academic year, Sri Venkateswara Group of Institutions continues to empower aspiring professionals by providing quality postgraduate education and shaping future leaders for the industry and society.

Shaping futures that matter

ASM Group of Institutes: A Legacy of Purpose, A Future Built on Innovation

In India's rapidly evolving higher education landscape, institutions that endure are those that continuously reinvent themselves without losing sight of their core purpose. Established in 1983 under the Audyogik Shikshan Mandal, the ASM Group of Institutes has spent over four decades building industry-ready professionals, nurturing leadership, and shaping futures that matter.

Education must evolve at the pace of the world outside the campus. Our focus has always been on blending academic rigour with industry relevance.

— Sandeep Pachpande, Chairman, ASM Group of Institutes

This commitment was recently reaffirmed when ASM was named "Pune's Best Management Institute" at the Navbharat Education Excellence Awards 2024—recognising institutions that deliver future-ready, industry-

aligned education. Today, ASM offers holistic education from KG to PG and Ph.D., across 12+ institutes and three campuses.

With a 42-year legacy, ASM has evolved from a management education initiative into a diversified education group focused on long-term career readiness. Its alumni network of 75,000+ professionals hold leadership roles across multinational corporations, Indian enterprises, startups, and

global organisations.

Industry integration is a defining strength at ASM. Collaborations with Harvard Business Publishing, Microsoft, AWS Educate, Automation Anywhere, SAP, and other global leaders shape curriculum, certifications, and experiential learning. ASM has also been an early adopter of Artificial Intelligence in management education, with ASM's IBMR among the first to introduce AI as a second specialisation in PGDM, integrating AI-driven analytics, automation, and decision-making. AI is increasingly embedded across teaching, learning, and assessment to enhance student outcomes.

This strong industry-technology alignment drives consistent placements, with 250+ recruiters across consulting, BFSI, technology, IT, analytics, and emerging digital sectors.

Global immersion programs, international MoUs, and academic forums like INCON, MINDSCAPE, and PERCEPT further enrich learning. In 2025, ASM expanded with a new PGDM institute under ASM's IBMR and launched the AI-powered ASM NextGen Technical Campus, Talegaon. Looking ahead, ASM is laying the foundation for ASM NextGen University—a multidisciplinary, future-ready academic ecosystem.

As Pachpande puts it, "ASM is not just responding to change; we are preparing students to lead it."

AI, Innovation and Global Learning Forge the Next Generation of Leaders

Chitkara Business School evolving for the future

In an era defined by rapid technological shifts, evolving business models, and heightened global interconnectedness, management education is being reshaped by the demands of relevance and readiness. Chitkara Business School (CBS), a constituent of Chitkara University, has steadily emerged as an institution that recognises this shift and responds to it with clarity and purpose. Established in 2010 under the Chitkara Educational Trust, CBS has developed a learning environment where academic rigour is aligned with practical understanding, enabling students to engage meaningfully with contemporary business challenges.

CBS has earned recognition among the top higher education institutions, reflecting a sustained commitment to quality, consistency, and outcomes. This standing is not the result of isolated achievements but of carefully designed academic systems, robust institutional processes, and a continuous focus on improving teaching and learning practices. The school's academic philosophy emphasises structured pedagogy, outcome-oriented learning, and regular curriculum review to ensure alignment with changing industry expectations and economic realities.

The program portfolio at CBS spans undergraduate, postgraduate, and executive education, including BBA, MBA, and Executive MBA offerings. These programs are designed to provide strong conceptual foundations while encouraging analytical thinking, ethical awareness, and leadership readiness. An important dimension of this academic framework is the integration of a Minor in Artificial Intelligence in Business across programs, enabling students to understand the application of data-driven tools, automation, and intelligent systems within managerial contexts. This integration supports informed decision-making and prepares students to operate effectively in technology-enabled business environments.

Industry engagement remains a central element of the CBS learning experience. Through case-based instruction, live projects, internships, and sustained interaction with corporate professionals, students gain exposure to real-world organisational practices. Faculty members

bring academic expertise and professional insight into the classroom, guiding students through applied learning experiences that bridge theory and practice. This approach has contributed to strong graduate outcomes, with over 350 blue-chip companies recruiting CBS students across sectors each year.

Global orientation further strengthens the school's academic offering. CBS provides students with access to international academic exposure through collaborations, exchanges, and structured global learning opportunities, allowing them to engage with diverse perspectives and global business practices. These initiatives enhance cross-cultural understanding and equip students with the adaptability required in international professional settings.

Alongside academic delivery, CBS supports entrepreneurial ambition through startup mentoring, research-driven initiatives, and access to structured innovation support. Backed by a strong emphasis on research and institutional support systems, the school encourages idea development and enterprise creation within a disciplined academic framework.

Together, these elements position Chitkara Business School as an institution focused on preparing future business leaders who are analytically sound, professionally grounded, and globally aware. As management education continues to evolve, CBS remains committed to strengthening its academic practices while expanding opportunities that enable students to remain competitive and relevant in a dynamic global economy.

Pioneering Your Path to Tomorrow's Business World

Think Big and Achieve Big" - a motto that Prof. Purushottam Bung firmly believes in as, Director of RV Institute of Management, located in the CBD of Bengaluru. He strives to make his mark in management education, aiming to be recognized as a renowned academic leader, researcher, consultant and teacher. But his unwavering desire for entrepreneurship led him to venture into the business world. With a wealth of experience gained from his entrepreneurial pursuits, he soon discovered his passion and a keen interest in academics. From there, he decided to pursue a career in Academics. Today, Bung boasts a remarkable 30+ year experience in academia and industry.

We want all our students and staff to be Healthy, Entrepreneurial and Happy (HEH RVIM). This is what we believe in.

— Prof. Purushottam Bung

ada and a research fellow of the Institute of Productivity (IOP), UK. These achievements are a testament to Bung's commitment to his profession and his passion for driving positive change in the field of management education. His strong business acumen, entrepreneurial spirit and empathy for the learning community as a whole has earned him widespread recognition and inspired countless others to follow in his footsteps.

The Vision for RVIM

As the Director of RVIM, Prof. Bung shoulders various crucial roles and responsibilities, from admissions and placements to strengthening alumni relations, research, consultancy, collaborations, and overall grooming of the students. Under his leadership, RVIM has been re-accredited by the National Assessment and Accreditation Council (NAAC) with an A+ grade. Now, he is focused on achieving international accreditation, which involves a lot of hard work and dedication. RVIM's recent achievement of the "Diamond" rating from QS-I Gauge, an international accreditation agency, is a testament to its relentless efforts towards excellence.

Talking about his vision, Prof. Bung emphasized the need for RVIM to continuously evolve and adapt to the chang-

ing needs of the industry and society. He envisions making RVIM an Institution par excellence and gaining a series of international accreditation. "In the next 10 years, our top priorities will be: adding new programmes, increasing the intake, building international collaborations, attracting international students, and introducing innovative courses and programs in line with NEP. RVIM should be known not just for teaching but also for the research, consultancy training and extension," pinpoints Bung.

Today, Prof. Bung wishes to focus on niche areas like entrepreneurship, AI business analytics and healthcare management. He aims to organize more industry-oriented programs, conferences, workshops, seminars, MDPs, FDPs, and students symposiums. These initiatives will help students to gain practical insights and hands-on experience, thereby improving their skills and employability. He also wants to focus on research and consultancy work in these niche areas, which can help RVIM gain more credibility and recognition. Prof. Bung acknowledges support from management and all the stakeholders towards the successful journey of RVIM so far and in future as well.
